

Manual Piatto

Timberlab B.V.
Harskamperweg 32
6731 AB Otterlo

Follow this installation guide for a safe installation.

General

- Follow this installation guide for a safe installation.
- Installation and connection of the lighting armature should be done by a certified installer
- Disable main supply before starting installation activities!
- Timberlab is not responsible for adjustments or modifications on the armature
- The armature is not dimmable!
- The earthing will be (is) connected to the RVS lid
- We do not recommend the use of concrete mortar for filling in the area around the column. If necessary/derivable, depending on the type of soil a stabilising sand can be applied.

Maintenance advice

The wood does not require any maintenance. In the course of time, the wood will grey in a natural way. If a treatment is chosen, a moisture regulating surface treatment should always be applied. Ask your supplier for advice! If desired, the LED module can be cleaned with a soft brush.

Warranty

The product comes with a two-year guarantee. Wood is a natural product. This wood is, unless expressly stated otherwise, fresh, undried, sawn and/or planed (if applicable). No further woodworking was performed. There is always a chance of warping and/or (dry) cracking of the wood. This may occur upon delivery or later. This is not a production error but a natural characteristic of the wood. Warranties do not apply for this.

Product	Wood species	Certification	In ground/ post holder	Colour temperature	Version	Voltage	Variations
				K		VAC	
Piatto (22)	Chestnut (2)	N/A (0)	L1+650mm (00)	2.200K (5)	32mm hole (0) without PIR (0)	230V (1)	N/A (00)
Piatto-solar (23)		PEFC (2)		2.700 (1)	with cable (1) with PIR (1)	12V-24V AC/DC	socket (02)
				4.000 (3)	without PIR with anti-theft (2)		
				amber (4)	with PIR with anti-theft (3)
